EDUCATION

The University of Hong Kong
BEng in Computer Engineering
Sep 2026 – Present
Focus: Robotics & Autonomous Systems
Minor: Information & Systems Analytics

UIA International School of Tokyo
Cambridge International A-Levels
Apr 2015 – Jun 2026
A-Level: 3 A*, 1 A
AS: 4 A · IGCSE: 6 A*

SKILLS

Python · JavaScript · Java · HTML / CSS · C++ (basics) · Next.js · React · AWS / Azure · Docker · Git / GitHub · NumPy / Pandas · Arduino

LANGUAGES

English	Fluent
Tamil	Fluent
Japanese	Working
Hindi	Working

OPEN TO RESEARCH, INTERNSHIP & APPRENTICESHIP ROLES

Arjith Arya Amutha Saravanakumar

Computer Engineering @ HKU · Co-founder & CTO, Tsukuba Tech

I build where software meets hardware, from logic gates to robotics. Computer Engineering undergraduate at HKU, focused on robotics and autonomous systems.

EXPERIENCE

Co-founder & CTO · Tsukuba Tech
Mar 2025 – Present

- Co-founded the technical function and built the studio's first internship program
- Lead 8–10 interns across frontend, documentation, and UI/UX to deliver TanzzAI's documentation and marketing site in Next.js
- Run weekly reviews and stand-ups, using daily progress logs to resolve technical blockers early

AI Programmer Analyst Intern · Sysveda
Jul – Aug 2025

- Reached 86.3% accuracy with a Random Forest model on 10,000 rows, benchmarked against regression, decision-tree, and neural-network approaches
- Co-built an AWS Bedrock agent that automated report transcription for internal R&D projects

PROJECTS

LEO — Smart Home Assistant
In progress

Tsukuba Tech · Python

AI assistant that works with your apps and files and learns the tasks you repeat. Beta prototype on macOS, now testing with users.

NAND2Tetris — Virtual HACK Computer
In progress

Self-paced · HDL

Built a full HACK CPU from NAND gates up through adders, registers, and multiplexers. Hardware layer complete; assembler and VM in progress.

Q.U.I.L.L
Jun 2026 – Present

Personal · JavaScript, LLM API

Private journaling companion that responds with restraint and remembers past entries instead of giving advice. Live demo.

SafeCity
Jun 2026

FutureHacks Hackathon · React, Vite, Leaflet.js

Location-aware emergency guidance for ~50 countries with nearby-help maps, USGS earthquake alerts, and a local AI assistant. Built frontend and API integrations on a 3-person team.

AWARDS

Future Leader Scholarship
2 years · UIA International School of Tokyo

High Honor Roll (95%+)
3 years · UIA International School of Tokyo

CERTIFICATIONS

Agents League: Reasoning Agents
